

WORLD'S MOST FUN LEARNING GROUND

SNOWFLAKE MULTITEACH

Improve educational results for pupils, teachers & schools

Snowflake MultiTeach is a fun edutainment suite of software apps for touchscreens, that can be used by teachers and pupils in primary education classrooms.

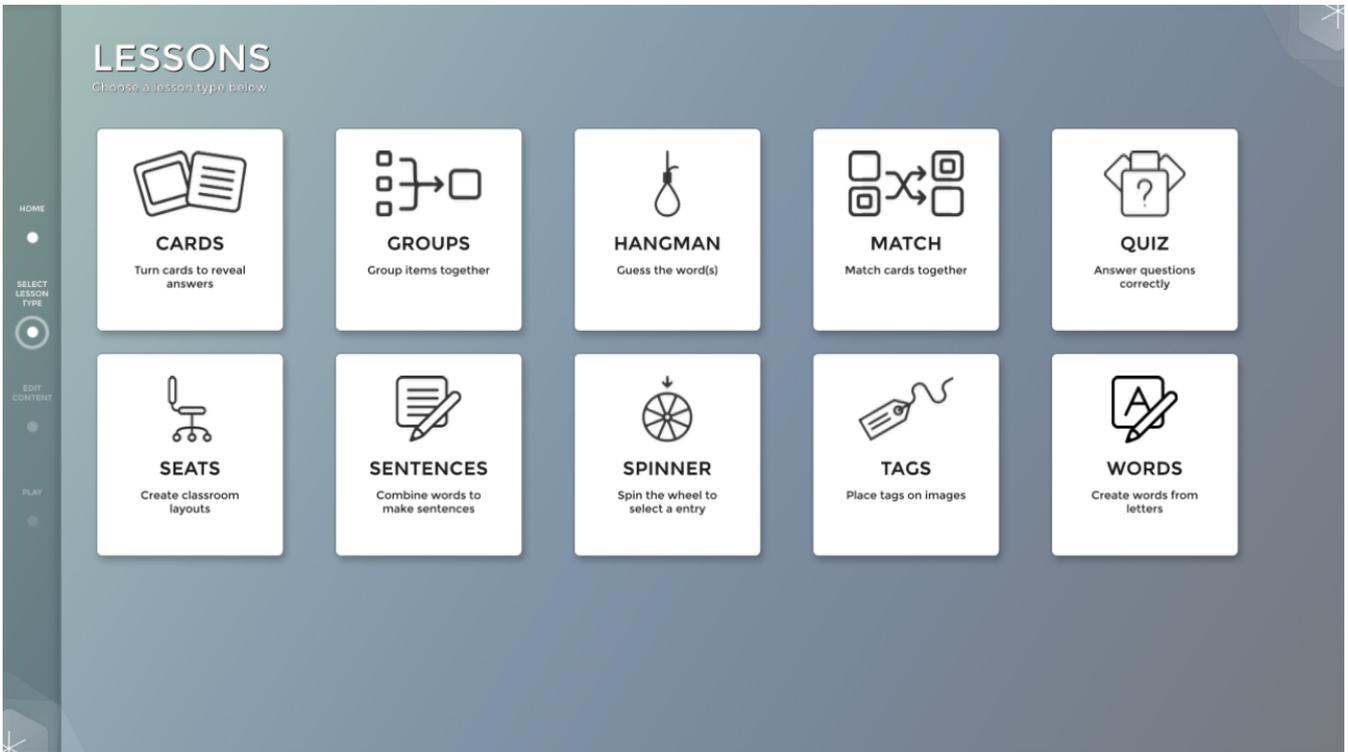

Children have short attention spans. Snowflake MultiTeach solves that problem, by making education more fun, engaging and memorable, resulting in exciting interactive classrooms experiences that increase the performance of pupils and teachers.

In addition to the 25+ off the shelf apps with preset content, busy teachers can easily and quickly create curriculum specific touchscreen lessons with custom content, using the Lessons app.

POWERED BY

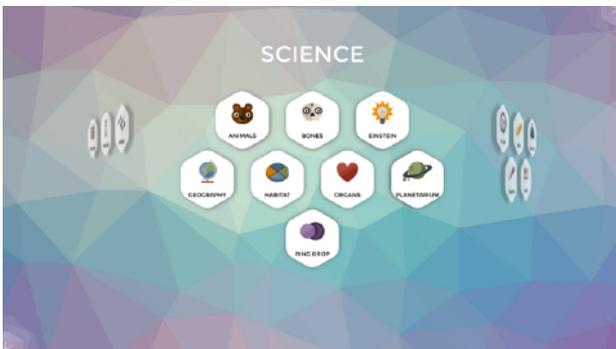

NUITEQ®

Lessons

Teachers can import dynamic content such as videos, images, sounds and text to the Lessons apps, to make their interactive classroom lessons come to life.

Lessons comes with a multitude of app templates that teachers can easily adjust, to fit whatever topic they wish. Whether you are teaching younger children about animals, simplistic spelling or grammar, right through to higher grades for older kids learning about the carbon cycle, chemistry or physics. Lessons gives teachers in all grades, the ability to create engaging and exciting interactive touchscreen content.

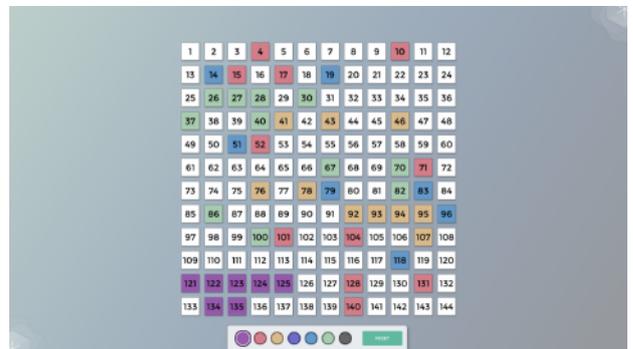

Carbon UI

New and improved easy to use interface.

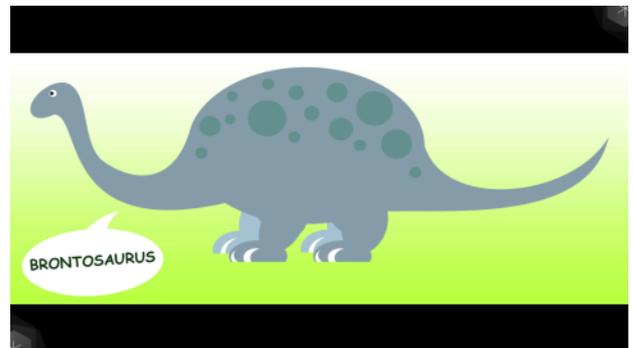

Annotate

Create, save and share annotations.

Number square

Colour numbers in the square.

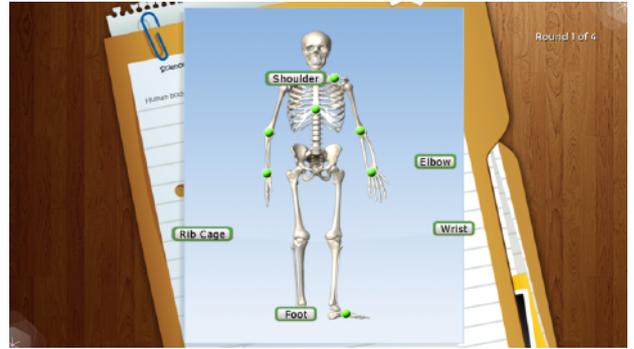

Stage

Share content onto a secondary display.

Zones

Divide your interactive display in sections, to leverage its multi-user collaborative capabilities.

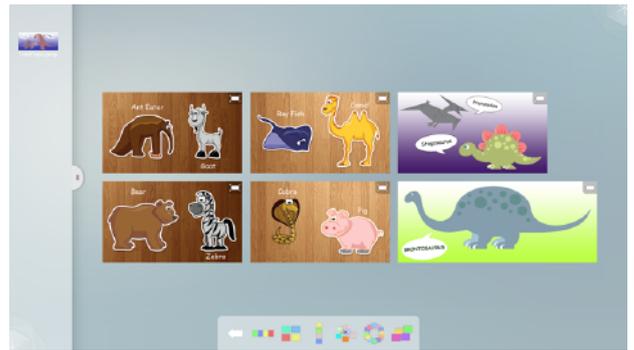

Bones

Match words with the body parts.

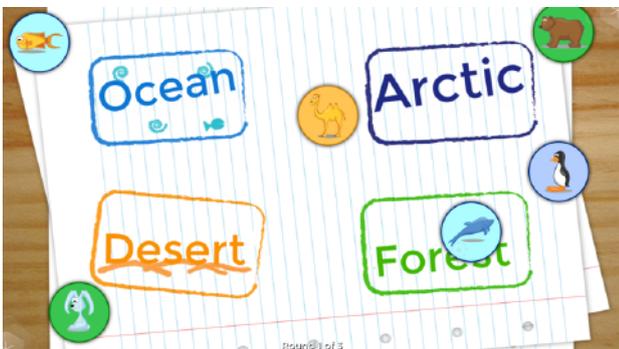

GravitoY

Draw objects, control and experience the effects of the gravity playground.

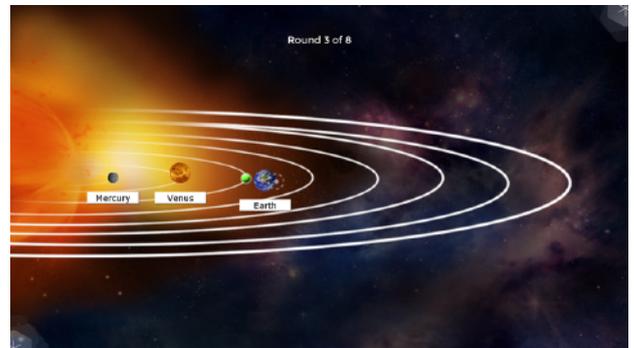

Presenter

View, present and explore photos, videos, audio and PDF files straight from a USB, Dropbox, your hard drive, or a shared network folder.

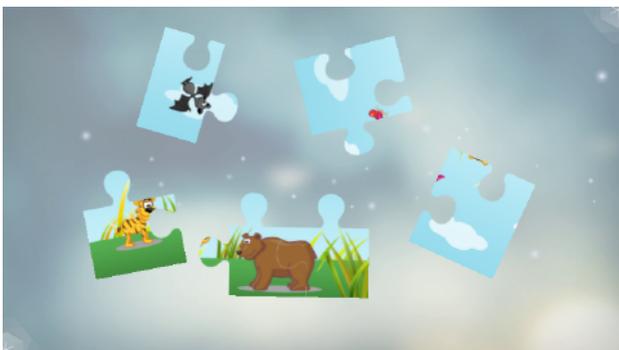

Habitat

Match the animals with their habitat.

Planetarium

Label the planets.

Jigsaw

Puzzle pieces together.

Ring drop

Drop the items in the right spot.

Einstein

Drag the correct answers to your area.

Geography

Place the flags on the correct country.

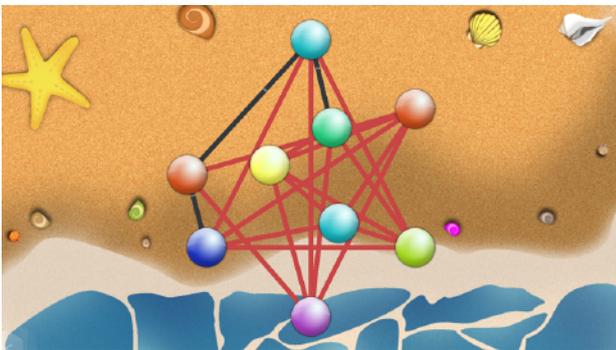

Math bugs

Tap the correct bugs.

Draw

Create, save, print & email your own drawings and fun art work.

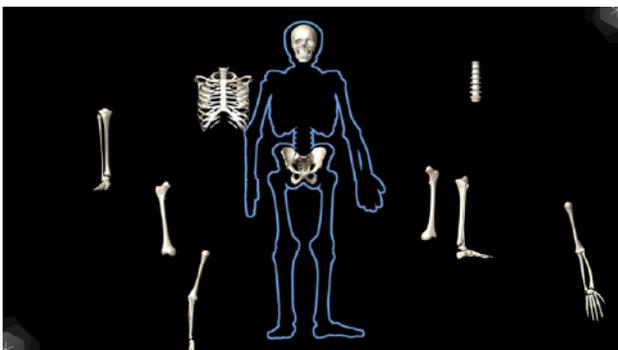

Untangle

Mind bending puzzle game that can be played solo or collaboratively.

Tracer

Visualise and showcase the performance and capabilities of your interactive multitouch display.

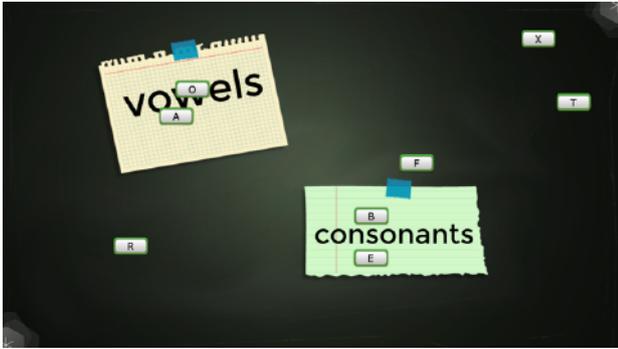

Puzzles

Drag the objects to the correct location.

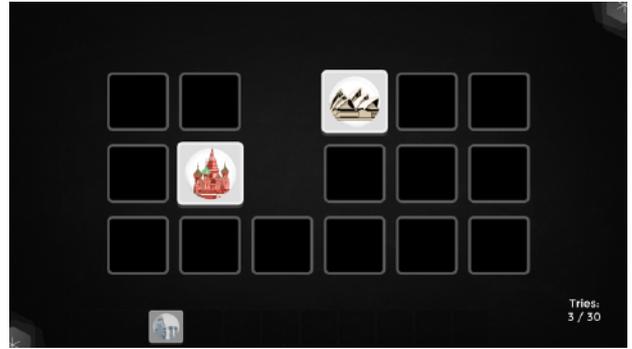

Piano

Play and record your own music.

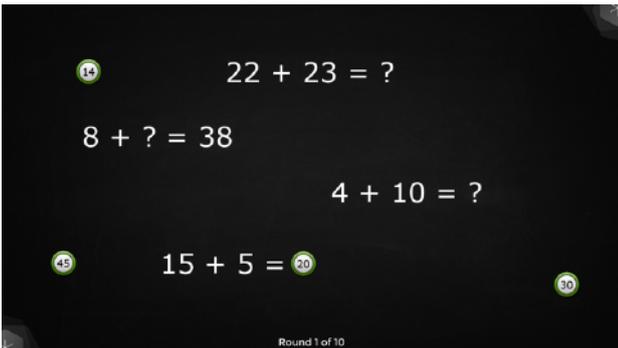

Letter play

Place the letters in the right category.

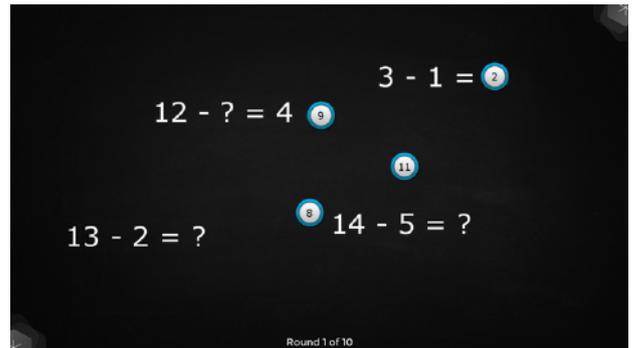

Match it

Flip the matching cards.

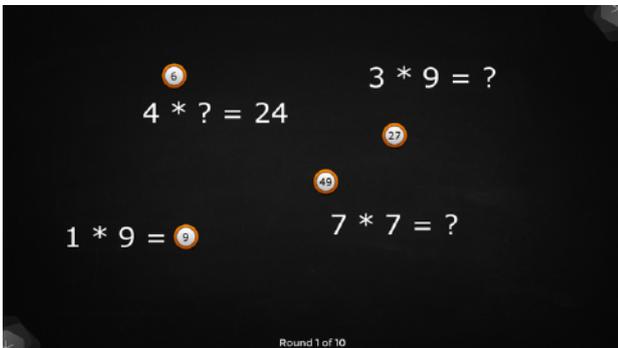

Addition

Place the correct answers in the right area.

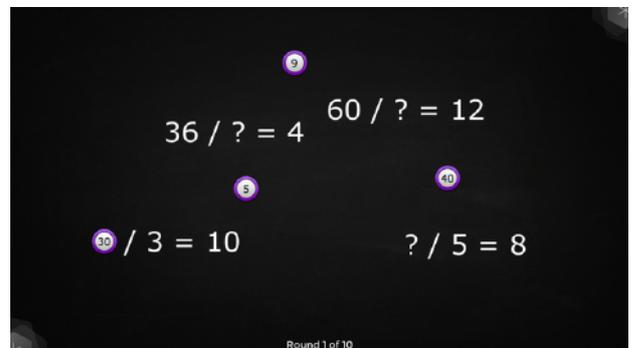

Subtraction

Place the answer in the correct location.

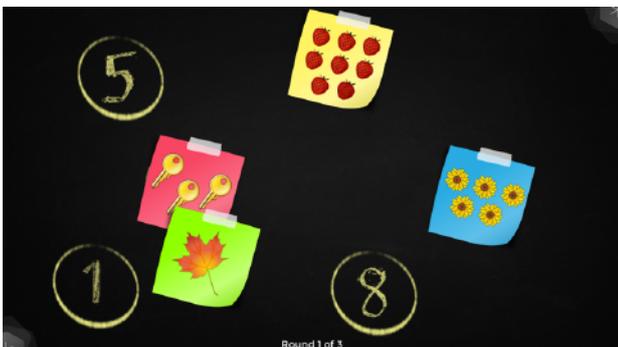

Multiplication

Drag the answer to the right spot.

Division

Place the answer in the correct area.

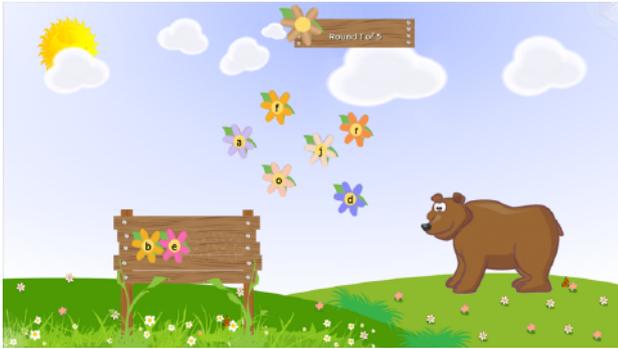

Count

Drag the images to the correct spot.

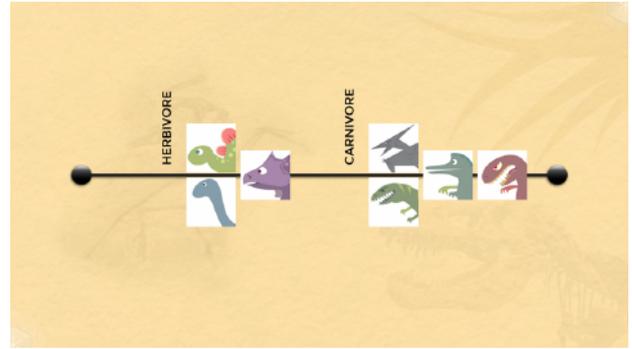

Wordplay

Place the correct word in the right area.

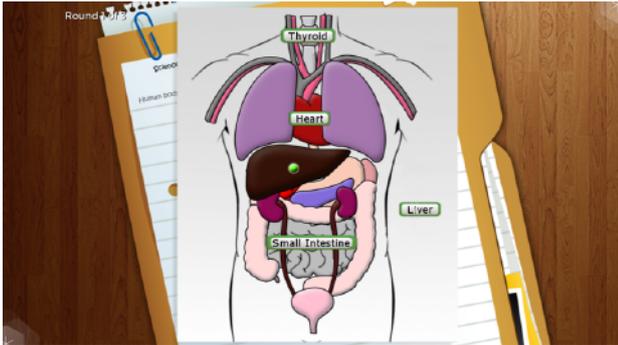

Spelling

Spell the words with the right letters.

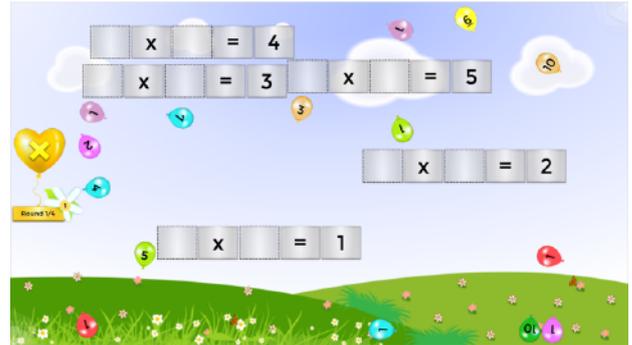

Timeline

Explore the historic timeline.

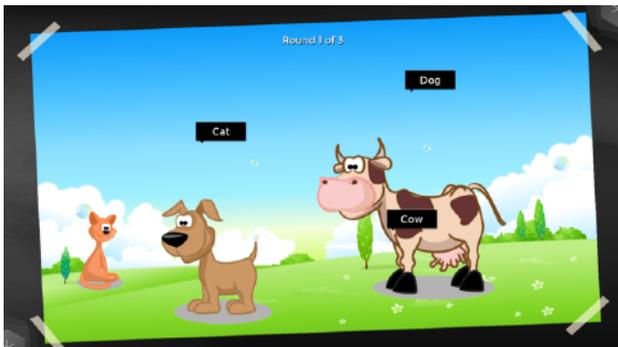

Organs

Label the organs.

Numbers

Drag the numbers to the right spots.

Animals

Match the words with the animals.

Clock

Drag the clock hand to the correct area.

Configurator

Quickly create your own personalised, branded look and feel, without the need to program. Easily change backgrounds, icons, text, game settings, menu layouts and other content, to fit your personal preference.
