Tetra Table Elite

The Promultis Tetra Table is a complete multi touch, collaborative interactive surface solution that has electric adjustable height capability.

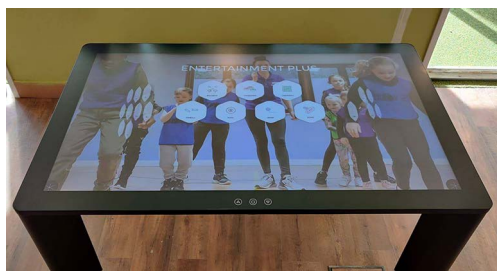

The Promultis Tetra Elite is a fixed, four-legged, 65" 4K electrically height-adjustable 50 Touch point projected capacitive collaborative interactive table.

Its sexy and sleek design and high specification mean it will fit into literally every type of environment whether being used in a reception area, as an interactive games table, in a marketing or sales suite, or in a meeting room.

Driven by an android backend, you can install apps from the play store or add the optional windows i7 OPS PC which slots neatly inside the table or use your own PC, laptop, or another device to drive it too.

Promultis Tetra Elite tables are ideal for:

- Marketing Suites
- Reception Areas
- Exhibition Stands
- Museums
- Libraries
- Play Areas

Interactive surface area

The table provides a large working surface area allowing several users to collaborate all at the same time. Users can control the content they see by using natural gestures such as pinch, zoom and drag.

Software options

The Snowflake Suite Ultimate is perfect for education and training, its fully featured with all over 52 apps, including presentation, creativity and productivity tools, as well as games. It is intuitive and easy to use and customisable to suit your needs.

Promultis White Board Software

The Tetra Table Elite also comes with our industry renowned UboardMate interactive whiteboard software, which allows you to interact with the screen content in a multitude of fun and creative ways, perfect for education and training.

Immerse Bespoke Interactive Software from Promultis

Promultis offers a bespoke software creation service where our software development team will create a multitouch interactive experience to run on your touch table. Visit our website at <https://immerse.promultis.info/> for example applications and case studies.
